Subject: Compliment for Bill.....FW: Joan & Bill FW: CES
Date: Thursday, December 04, 2014 9:23:49 AM

Hi Bill,
Ran across this again while looking for something else. Just though I'd share a compliment to you. So often we don't share these and they are very important.... 😊

See email string.

Good Morning Joy!
Great news! Please ensure their trip is highlighted in the Weekly! Thanks!

Tony: I thought you should see this. I also heard from Joan yesterday, she had left a vm on my personal cell letting me know all was well and she was enjoying/learning.

I'm really glad she went and got to work with the folks from TX State Health.

I want her to learn her organizational skills for sites from Bill. You should see how he organizes his 36 sites. Exemplary. He also does GREAT on door to doors and his rapport with the state health folks is great. Better than anyones.

Joy,
Our trip has gone well. We have visited with a lot of people and left fliers and the past fact sheet on over 100 residences. We Have spoken with both of the ladies that are most instrumental in the neighborhood.

Joan is great, her enthusiasm is contagious! I hope I can continue to help her find her nitch in our team. I would like her to help with Delta and Wilcox, so she can see NPL

9761062

sites from the beginning. She is editing our new fact sheet, and I'm very excited to have the opportunity to help her in her new career.

Thanks,

Bill
